

High Temperature Oxidation and Corrosion of Metals (Hardback)

Filesize: 7.11 MB

Reviews

A really wonderful book with lucid and perfect reasons. This can be for all who statte there was not a worth reading through. You are going to like how the author write this book.

(Dr. Grady Jacobi DDS)

HIGH TEMPERATURE OXIDATION AND CORROSION OF METALS (HARDBACK)

ELSEVIER SCIENCE TECHNOLOGY, United Kingdom, 2016. Hardback. Book Condition: New. 2nd Revised edition. 240 x 165 mm. Language: English . Brand New Book. High Temperature Oxidation and Corrosion of Metals, Second Edition, provides a high level understanding of the fundamental mechanisms of high temperature alloy oxidation. It uses this understanding to develop methods of predicting oxidation rates and the way they change with temperature, gas chemistry, and alloy composition. The book focuses on the design and selection of alloy compositions which provide optimal resistance to attack by corrosive gases, providing a rigorous treatment of the thermodynamics and kinetics underlying high temperature alloy corrosion. In addition, it emphasizes quantitative calculations for predicting reaction rates and the effects of temperature, oxidant activities, and alloy compositions. Users will find this book to be an indispensable source of information for researchers and students who are dealing with high temperature corrosion. * Emphasizes quantitative calculations for predicting reaction rates and the effects of temperature, oxidant activities, and alloy compositions* Uses phase diagrams and diffusion paths to analyze and interpret scale structures and internal precipitation distributions* Presents a detailed examination of corrosion in industrial gases (water vapor effects, carburization and metal dusting, sulphidation)* Contains numerous micrographs, phase diagrams, and tabulations of relevant thermodynamic and kinetic data * Combines physical chemistry and materials science methodologies* Provides two completely new chapters (chapters 11 and 13), and numerous other updates throughout the text.
